Profile Summary

Diligent and enthusiastic ENGINEER in search of a promising career path to establish my professional aspect eager to leverage my technical expertise as JAVA FULL STACK DEVELOPER and to drive the growth of the organization while concurrently enhancing my own skill set.

Projects

FoodieGo - *Java, JDBC, JSP Servlets, MySQL.*   **March 24 - April 24**

- Created a complete platform designed to order food online.
- This Food Delivery Application allows users to browse restaurants, view menus, add items to a cart, and place orders. It includes pages for restaurants, menus, user info, cart, checkout, and order confirmation.
- Some of the implemented features include:
    - Robust Access Controls   • Restaurant , Menu and Order Management   • Dynamic Updates
